|| Saturday: January 16: 2021 || α. We invite the world and the Americans to recall how Mr Donald Trump foretold, in chilling words and expressions, about the 'American Carnage' from a podium, from where no one would have thought a newly elected President of America would speak in such a way. But he did and the following four years of his term he did nothing but to show the world that he was heading to unleash and unfold that 'American Carnage', that built up its momentum in the last year of his presidency when he had buried his head, where it had always been, in a made-up, distorted and distortive reality-fractures, mythological dung-heap of 'alternative facts' and in the quagmires of concocted conspiracy theories, deep in failing to see what the coronavirus pandemic was going to unleash and what its capabilities and powers were and what it was going to do to America and its people. He had failed miserably and went ahead denying science, evidence, reason and common sense and kept on wasting his energies in the distorteddia and around golf courses and, then, he had had an encounter with the virus where he did not fail to dazzle, shock and gob-smack Americans and the world with his conducts, his treatment of others and his contempt towards science, evidence, reason and common sense, as well as, to the safety and value of other people and their lives.

However, he bounced back right onto the electioneering and pretended that there was no such thing as the coronavirus pandemic, that it was not happening, that it was not spreading across the land like a wild fire, that numbers of infected were not rising, hospitals were not getting towards being overwhelmed, the economy was not being shredded to pieces, business, commerce and trade were not getting torn away as tornadoes tear away landmarks, the workers, their families and communities were not getting mauled by the illness as they began counting their dead and they suffer the impacts of the pandemic on their incomes, jobs, hours of work. The unemployment kept on going. Along with all that, ran protests and rights movement, the Black Lives Matter against law enforcement brutalities and extra-judicial killings, tortures and maltreatment of minority communities of all kinds, including, the African-Americans and the rampant, institutional or what the Americans use, structural racism and with that America and the world witnessed how the same law enforcement treated that movement with 'zeal and vigour' with far excessive 'power, prowess and force', as, if, these protestors were criminals and they must be crushed.

That became apparent and obvious as to how the same law enforcement of the most advanced economy, a solid and long-standing democracy, a state, that fought countless wars and led in countless initiatives and built a new country, almost, out of nothing, following the great depression and the world wars, that sent human on the moon, that created NASA, that is leading the way to send humans to Mars and much more besides when it dealt with those, who declared a war against America itself and went to attack the very symbol and seat of America on January 06. To the world it was unthinkable that such a failure could occur in America by its law enforcement and the entire of its security apparatus! But it happened because that violent, armed and dangerous mob was not made up by people, who marched on the streets as Black Lives Matter, who were predominantly black and of minority backgrounds but, that they were a white supremacist mob.

However, that 'American Carnage', as foretold by Mr Donald Trump was unleashed: against America itself by the attack of the violent and white supremacist mob, that was orchestrated, asked for, invited, inspired, supported and fuelled by Mr Trump and by many of his supporters in his Administration and the Congress. That mob initiated a war, run-sacked and assaulted the seat and symbol of America and its democracy and system of the rule of law, where the mob went and conducted a war, as if, the world had gone back centuries, where the violent and armed mob was looking to get 'the traitor', who, they once elected as their Vice President, to get him and assassinate him. They were as close as less than a few seconds to get to the Vice President. Had they succeeded that American Carnage would have added something else in that ugly, violent and criminal insurrection of that white supremacist mob. However, this, too, must be, noted that, while that carnage was taking place outside and inside the capitol buildings, the Republicans in their droves were running another kind of expression of the same carnage: they were voting to nullify, to invalidate, the legitimate, valid and lawful mandate of the very American people! This is the same carnage in its, even, more dangerous expression than the physical attacks of the mob for these Republicans are part of the same 'mob', that stands against the will of the people, against the rule of law and against democracy and, thus, against the their very own people and country!

The American Carnage unfolded: the country is heading towards adding, almost, a quarter of the total deaths by the coronavirus pandemic across the world, over 02 million people, millions are infected and there is left hardly any family in America, who had not lost a loved one in this carnage. And, the dark winter is just begun and the infection rages on and death rates are going towards the next milestone of reaching five thousand soon. Mr Biden is right in saying that things could get worse before they get better. And we are still in mid-january!

The economy is shredded to pieces. Jobless and suffering of people, of workers and their families and communities are running devastations but none of that can be imagined in anyway to be remedied unless and until the virus is brought under control. The economy can not be brought back to 'normalcy' while the pandemic had become the 'judge, jury and executioner' and is conducting an invisible war against all humanity. That is where America stands as the world humanity in this regard, the pandemic, though, many places of the world, are dealing with it far better than America has done so far. At, not the end of the American Carnage' but, at the thick of it, even, though, the instigator of it is about to leave the stage, he would leave those, who want to create carnage in the open fields where he will seek to use them as he did before, stand Biden-Harris Team and their new Administration.

America must face this carnage and look at what have been 'destroyed, devastated and broken' and look at how to bring an end to these 'carnage', begin to respond to how to begin to rebuild, revive, regenerate! There are four kinds of priorities: a: short or immediate term; b: medium term; c: long term; and d: vision term. In all these America faces existential issues: where America stands today, in any way one looks at it, this America is unsustainable. America is a country, the richest in the world, where, roughly, about 05% of the rich own more than 90% of the wealth of the nation while

the 95% own, therefore, only, less than 10%, this 10% is being a terrible over-estimation! The richest country in the world houses the vast majority of the poor of the world in it; the most disempowered, the most disenfranchised and most powerless workers in the world live and suffer in America, who suffer poverty and malnutrition and many other ills because they exist and perish by a poverty-wage and face mandatory gates of prohibitions, obstacles, barriers, prejudice, discrimination, violence, brutality and much more to all forms of empowerment and enfranchisement, which neither lets the workers to live nor does it let them to die! Suffering, struggle, hardship is their eternal lot. There is an army of homeless people, an army of rough sleepers, an army of humanity left in the dark alleys of drug and alcohol abuse, an army of eternally unemployable people, an army of small communities and towns and villages, that have been written off, out of sight and out of the systems. There is an army of gangs and crime and violence! Then, there are the guns and knives and the violence, murders and killings and the rest with it are there. That money has taken hostage of American politics like a python holds its victim. The distorted media have come to become the most powerful, left unchecked, that have destroyed the very reality and advanced dehumanisations, machinations, mechanisations, directing, manipulating and herding the people, which have now come to challenge the very fabric of existence, individuals, families, communities, agencies and organisations all face utter and absolute a state of dehumanisation and the system of governance, system of economics, system of the judiciary, system of scrutiny, system of business, commerce and trade, education, learning and research and the whole society are made, almost, powerless and directed, dictated and herded by these distorted media outlets.

There are far more fundamental issues and challenges, that can be written about in this space and place, in this editorial about America's ills; the laws, relating to rights, human rights and civil liberties, women's rights, access to justice, equality issues, under age child marriage laws, age of criminal liability, the issues with 'voter suppression' culture, particularly, in suppressing minority communities and those, with experience of the criminal justice system and prisons, domestic violence and far more issues besides, excessive incarceration of African-American population, treatment of the drug addiction as crime issue while it, evidently, is a health and human rights issue.

Education: if, America needs any revolution, that would be an Education Revolution, freeing the nation in the realm of education, higher education and life-long learning and highest investment in that education, that can and will let free the eternal phoenix of humanity of the Americans. That education and its quality determine the quality of any people. America shall forever fall far short and remain far short of what it is capable of being and doing in the world unless and until it invests in that education of the nation: that degree-level education and life-long learning is made free to all Americans and that high investment is directed to improve the quality of all forms of education, from nursery to primary, from school to college to universities and beyond. This is done with the high-urgency, with the high-determination and with the high-resolve, as, if, America's life and death depend on it for it does.

Current America is unsustainable in the long run: therefore, history places Biden-Harris at this place to choose whether to take up this last chance salon and begin again: to seek: to try: to do: to make better: the human condition: to Re-direct, Re-orientate, Re-architecture, Revive, Regenerate and Re-create an Equitable and Sustainable America, Capable of Being the Foremost Nation Among the Assembly of Humanity in the New Centuries Ahead: For Otherwise, This Current America Is Unsustainable. This American economy, like the other advanced economies of the world, is no longer just a capitalistic economy because the distorteddia have transformed it into pseudonomics, that cut holes in the heart of the economy to take blood out of it like vampires and the economy is struggling for breath and it continues to do so, because the pseudonomics does not stop robbing that blood out and away from the economy. That was how and that was why the last financial crash happen and it shall keep coming back, except, each successive time, it will become far more dangerous and devastating unless pseudonomics is stopped.

Any administration of today of any advance economy and, particularly, in America, must learn to invest all its energies to try and understand how the distorteddia have developed and what they have done to the economy and how to respond to that and how to stop these 'holes in the heart of the economy' so that the people, the working humanity is not asked and forced to 'pay for that robbery', that they had nothing to do with when the economy comes to crumble as it did in the last financial crash, that will come back.

Further, the leaders of all spheres must learn to accept and move away from the distorteddia and begin doing politics and conduct the business of leading and governance the olden way: you speak and communicate to the people honestly and directly, in reality, in their communities, in their neighbourhoods, in their areas and localities, in your constituencies, at the bodies you are elected to and speak to them through the bona fide press, media and news organisations and stop twenty-four-seven, every nano-second opinioneering, backstabbing, poisoning and self-grandiosising in the distorteddia platforms. The time it is to get back to reality and launch a fight back against the distorteddia for Mr Donald Trump, though, they are now trying to come clean and seeking to position themselves away from him, was a creation of the distorteddia. They created him, supported him, enabled him and made him what he did become! They can not escape this in the historic term!

So far, the programmes Biden-Harris Team has put out shows the scale of vision, scale of focus and the scale of the 'vision-scape' of the sense that the task at hand is not just a great one but a giant one: one with a faint heart is not suitable to take up that mighty task! It is a mighty task but all theses years of long life, long public service and community involvement should have offered much to Mr Biden to have acquired much of the skills, vision, faith, hope and dare to rise big, imagine big, aspire big, inspire big, plan big, strive big, build and create big and create consensus and communities of people, who believe in big and inspire, empower and lead to rise, to work, to try and attempt to bring about giant changes for anything short shall not do. The Administration Team is being built as days go by and from it can be seen the desire to gather the best together and the

focus must be to be creative and imaginative to bring literally the best of all possible spheres of life and begin this task. The the status-quo complicity mechanism, being the Democrats and the Republicans is not going to work. America is not just the Congress; it is neither the House of Representatives nor the Senate nor is it the President nor his team nor are Americans democrats or republicans: they are the people, the Americans, the real people, the individuals, the families, the networks of families, their communities, their agencies and organisations and the living ecology they create in the greater society. There lies the source, there lies the origin, there lies the power, there lies the pathways of enfranchisement and empowerment. There is the field of work and there this administration must rise to dare to go and take America and the Americans to begin again: to build back better, with courage, with vision, with dare.

For this current America is unsustainable. We wish Mr Biden and Ms Harris all the best for America and the Americans had never been in such a bad place ever in the history of the country where they are today. Poverty of imagination, poverty of vision, poverty of dare, poverty of courage, poverty of ingenuity and poverty of ambition and creativity, poverty of high faith and high hope, poverty of high resolve, poverty of high determination from this new Administration, this Biden-Harris team shall not be forgiven by American or the Americans or history for this is literally the last chance salon for America to rise or fall when rise it must.

And the direction, already, evident in Biden-Harris is that America is back into and onto the world and is going to take its rightful place among the fellow humanity of the world and this is vital, for as America faces existential challenges of its own, whole of humanity faces the same existential challenges of many kinds: global warming, climate change, the degradation and pollution of the environment, air pollution, plastic pollution, soil degradation, chemical pollution, bio-diversity loss and much more beside all these and to tackle all these the whole humanity, all the states and governments, nations, countries and all peoples and all agencies and organisations must work together to seek to try to move away from fossil-fuel-drunk, coal-infested dinosaur economics and recreate a clean, green, circular and sustainable economics for the future centuries, bringing and end poverty-wage, bringing an end to the high-cruelty of poverty and much more besides and with it bring the world together, enable, support and foster the least developed countries to gain better economic a state and standard of life and living, enable, support and foster the developing countries develop further so that the world market place reaches a stable, healthy and sustainable place, where all participants of the world economies are treated fairly, equitably and justly and from there 'winners do not get to take it all'! For we can not fail in these tasks as failure, literally spells the end of the web and ecology of life on earth, including, the very humanity, that we are.

Therefore, we invite Mr Biden and Ms Harris to face up to 'we the people': face them, see them, hear them, remember them, call them, empower them, enfranchise them, inspire them and take them to the battlefields of life across America to rise and join forces, join hands and minds together to work to strive the hardest to, first become Americans again, a people again, that has no colour for humanity as souls, as psychologies, do not have any colours. Humanity as souls, as

psychologies, as minds, as wills, as brains, as agencies of being human minds, have no colours whatsoever. There is no white or black or blue or brown or yellow Americans but only Americans. The colours only apply to the outer jackets of our physiologies: all Americans are so because they are the 'rainbow' of that 'we the people', 'we the humanity', living in that land.

For all humanity belongs to one race, one kind, one type of 'the paragon of animals', which is called homo sapiens: this is no opinion but science and this is the true reality. Humanity are one, because they have and do share the same architectonics, the same architecture, the same mechanisms, systems and processes, that sustain and support life, the same human genome, the same biochemistry, the same neurology, the same cardiology, the same assistential homeogenesis, the same breath, the same blood, the same psychology. Their food and drink must contain the same goodness and nutrition! They find excessive heat too much they all find excessive cold too much. The virus, bacteria and illnesses attack them the same way and they fight back the same way. The biochemistry and pharmacology of medicine works in their physiologies by the same mechanisms, systems and processes.

But humanity is a beautiful magnificence on earth for while it has as strong a oneness and unity, that is as evident as the shining sun, it still has, equally, as strong an infinite diversity as the air we breathe. For there can not be a symphony unless there is a unison orchestra to play it but, without having the diverse range of unique, different and distinct instruments, making up such an orchestra, it can not play the symphony. For an orchestra unity is like its oxygen and diversity is like its blood. Likewise, for us humanity, unity is our oxygen, lighting up our inner landscape and diversity is our blood, coursing through our veins where the hearts beat the same beat and pulse shows how things vibrate music. Humanity is that orchestra and that part of it, that now occupies America now faces this task of rising to see this, accept, welcome, respect and celebrate this oneness and this diversity equally and go forth to seek: to try: to do: to make better: the human condition and to go forth to Re-direct, Re-orientate, Re-architecture, Revive, Regenerate and Re-create an Equitable and Sustainable America Capable of Being the Foremost Nation Among the Assembly of Humanity in the New Centuries Ahead: For Otherwise This Current America Is Unsustainable.

This Is the Body of Work, by Munayem Mayenin, That Has Brought Into Existence the Philosophy and Vision of Humanics

Dehumanisation of Humanity: Volume One: Published: July: 2007: 978-1-4477-1330-2

Mayenin worked and developed the very critique of capitalism and Marxism while at university in which he had envisioned the world's future in humanics for humanity to reach and achieve liberty and equality for all humanity, which capitalism has continually slaughtered and Marxism failed desperately, even, to understand, let alone, to know or show how to seek and achieve them. Some of these works were published in publications in the early 00s and the volume was published as a book in 2007. There are three other volumes of this planned work, yet to be published.

Humanics The Foundation: Volume One: Published: December 06: 2017: ISBN: 978-0-244-34575-4

This piece of work elaborated the philosophy of humanics and presented the idea of human enterprise and how it works to enable humanity to conduct the human economical endeavours in humanics.

Humanics The Humanicsonomics: Volume Two: Published: June 12: 2018: ISBN: 978-0-244-48334-0

This is the political economics or humanicsonomics of humanics in human enterprise. This volume presents the political economics of humanics and envisioned world's future as two distinct phases: pre-humanical or Kapitalawnomics phase in which capitalism is saved from pseudonomics and brought under the absolute and complete control and power of the rule of law so to make it serve the people at all times and not the rich and through this phase, humanity brings into existence the humanical Building-Block Foundational Human Rights and end capitalism's Poverty Paradigm, that causes all of the high-cruelties, high-brutalities and high-barbarities, that are inflicted on the vast number of humanity on this earth. Further to this, this work advances the system and mechanism of human enterprise and envisioned at the end of the development of Kapitalawnomics human societies will have developed enough to be able and equipped to try and seek to bring into existence humanical societies, that will begin to form a grid of humanical societies into a universal humanical civilisation on earth.

The Humanics Elleesium Declaration 2019: The Humanicsxian Manifesto: Published: April 06: 2019: ISBN: 978-0-244-76474-6

This short piece of work nano-summarised the entire body of Munayem Mayenin's works on humanics. This calls on the working humanity of the world to rise, organise and united under new and humanical political forces, parties and organisations to seek and try to bring about a humanical world movement to lead humanity to equality and liberty.

Humanics The Humanicsovics: Volume Three: To Be Published Later This Year

This volume presents the political philosophy of humanics and the means to deliver that political philosophy by and through humanicsovics, humanical direct form of democracy without party politics whereby each and every individual human being becomes his:her own High Representative and they all run their society's human affairs management together as individuals, working together as scientists and mathematicians without any political parties.

Alphansum Sovereign Necessarius: Published April 14: 2020: ISBN: 978-0-244-58241-8

Although, this large volume is of metaphysical work, it has brought the whole humanical universal view in a harmonious outlook, unifying all expressions, fields, areas and arenas of

human existence and in this process this work envisioned the coming into existence the new branches of science, that has already been mentioned.

Laranska The Anatomy of Fear: Novel: Published: January 2009: ISBN: 978-1-4477-1426-2

No Man's Land's Bloom: Play: Published: May 2010: ISBN: 978-1-4477-0903-9

United Colours of Blood: Screenplay: Published: January 2009: ISBN: 978-1-4477-1615-0

Larantia Poetry of Anatophysiophilosophicamonimayareginata: A Magnum of a Planned Volume of 850 Sonnets About All Branches of Medicine: Currently Having Few Hundred Sonnets: First Published: October 14, 2016: ISBN: 978-1-326-28882-2

In his other major bodies of works, that are yet to be published Mayenin has worked on further in elaborating the psychology and social psychology of the zoohumanity, that capitalism and all the dehumanisations it has inflicted on humanity through its enforcement of inequality and the absence of liberty. These as yet unpublished works include: Psychology of Zoohuman, Humanical Jurisprudence, Sociology of Evil, Economics of Squalors: The High-Cruelties High-Brutalities and High-Barbarities of Capitalism, Humanical Moral Science, Social Morality Or Good State, Humanical Civilisation: A Universal Grid of Humanical Societies and Colossus Complexus: Eternally Learning Humanity.

Humanics is the Post-Marxist and Post-Capitalistic World View of What Humanity can be and what it can do and how infinitely better a human condition can be created in a Humanical Society, by eradicating ownership and money and by establishing belongingship in human enterprise, setting all humans at liberty and equality under the rule of law in natural justice with a direct form of democracy, humanics calls it, Humanicsovics, in which, each human soul is her:his own High Representative. There can not be any sustainability until and unless we take the view that sustainability comes as philosophical, political philosophical, political economical, ethical, moral, sociological, educational, jurisprudential, socio-cultural and ecological and humanical spiritual so that we are able to create a sustainable 'architecture' of existence in a clean, green, circular and sustainable political economics, that underpins all forms and expressions of sustainability and when such an 'architecture' exists within the Larin Paraske Maxim or Oath: Do No Harm to Anyone or Anything: all things and all living forms must have equitable status in the sphere of all existence or all life on earth, with an emphasis on the Universana. Because humanity does not just exist on earth but it does so in the Sunnara, in the Home Bay of the Milky Way Galaxy in the vast expanse of the

Universe, our home Universana. Dear Reader, we are on the path of humanics, please, tell the world and world humanity that humanics has arrived on earth from ‘the without of human imagination’, learning, questioning and thoughts, gained from the eternal walks of this human soul’s eternal journey on the eternal path of eternal learning, with its humanical metaphysics, humanical philosophy as natural science, humanical psychology, humanical political philosophy, humanical political economics, humanical jurisprudence, humanical sociology, humanical moral science and humanical arealism. For capitalism has created global warming and climate change and wracked the earth with environmental degradations and pollutions in all spheres, where bio-diversity is getting lost at an alarming rate as the earth keeps on being heated up. Humanity is devastated by capitalism’s poverty-paradigm, delivering all its high-cruelties, high-brutalities and high-barbarities. This is why it is paramount that that we speak up and out and try our hardest to inspire faith, hope, determination and resolution among all humanity of this world, women and men, that we shall not just accept this ‘sentence of doom’, that capitalism’s mindless consumerism, infinite greed of infinite profiteering, decadent vogueism and venomous voyeurism, orchestrated by the Distorteddia have brought us and, yet, that we can, we should, we ought, we must keep on trying: ‘to seek to try: to do: to change: to make better the human condition’ and we do so as one humanity, as women and men, working together as one, in unison with the same aim, same goal, same objective: to get all humanity to liberty, equality, fairness and justice in the rule of law in natural justice, with a purpose and meaning to our existence, where we all humanity, with our all-unity and all-diversity, exist as one humanity naturale on one Mother Earth, in one Sunnara, in one Home Bay Milky Way Galaxy in the one Universana with the humanical foundation of faith: humanity is an infinity unfolding itself, in which, we are all-for-one and one-for-all.
