|| Life Elle || **The World Health Organisation Expert Panel Approves Janssen COVID Vaccine for Worldwide Use: WHO Considers That the Benefits of the Oxford:AstraZeneca Vaccine Outweigh Its Risks and Recommends That the Vaccinations Continue ||**

|| Wednesday: March 17: 2021 || á. The Janssen COVID-19 vaccine was publicly approved for international use on Wednesday by the World Health Organisation:WHO expert Advisory board, SAGE, which allayed concerns over clotting events, being associated by some countries, without definitive evidence, with coronavirus vaccines. The development comes amid a rise in new cases of

coronavirus infection worldwide, increasing by 10% cent in the past week, to more than three million new reported cases.

While WHO has said in a statement that some countries in the European Union have temporarily suspended use of the Oxford:AstraZeneca COVID-19 vaccine as a precautionary measure, based on reports of rare blood coagulation disorders in persons, who had received the vaccine. Other countries in the EU, having considered the same information, have decided to continue using the vaccine in their immunisation programmes. "Vaccination against COVID-19 will not reduce illness or deaths from other causes. Thrombo-embolic events are known to occur frequently. Venous thrombo-embolism is the third most common cardiovascular disease globally. In extensive vaccination campaigns, it is routine for countries to signal potential adverse events following immunisation." The statement said.

"This does not necessarily mean that the events are linked to vaccination itself but, it is good practice to investigate them. It, also, shows that the surveillance system works and that effective controls are in place. WHO is in regular contact with the European Medicines Agency and regulators around the world for the latest information on COVID-19 vaccine safety. The WHO Global Advisory Committee on Vaccine Safety is carefully assessing the latest available safety data for the Oxford:AstraZeneca vaccine. Once that review is completed, WHO will immediately communicate the findings to the public. At this time, WHO considers that the benefits of the AstraZeneca vaccine outweigh its risks and recommends that vaccinations continue."

WHO reported on Wednesday that after peaking in early January 2021, when there were just under five million cases a week, new cases then declined to around 02.5 million in the week commencing February 15, 2021. But the past three weeks have seen cases increasing again. This week, the Americas and Europe continue to account for more than 80% of new cases and new deaths, with rises in new cases in all regions, apart from Africa, where they remained the same as last week. As of March 17, 2021, there have been 120,164,106 confirmed cases of COVID-19, including, 2,660,422 deaths, reported to WHO.

More than 363,000,000 vaccine doses have been administered globally. In a virtual press conference from Geneva, SAGE hailed the one-dose Janssen vaccine, produced by a Johnson and Johnson subsidiary, as a safe and life-saving addition to the three other vaccines it has already approved for use: Pfizer, Moderna and Oxford:AstraZeneca.

The expert panel noted that clotting episodes, also, known as hypercoagulable events, were a symptom of COVID-19 amid the suspension of the Oxford:AstraZeneca vaccine by several European countries, pending scientific review. "The world is in a place where there is insufficient supply to meet the requirements of people, who need to be vaccinated; clearly, any of these vaccines are life-saving products., said Dr Kate O'Brien, the Director, Department of Immunisation, Vaccines and Biologicals at the World Health Organisation.

During the trials for the Janssen vaccine involving, nearly, 44,000 people, 10 of the 22,000 people, who received the blank dose developed a blood clot or thrombo-embolic events while 14 of the remaining 22,000, who were inoculated, developed a clot. “This is about the same for both groups. There’s a slight imbalance but it’s still not statistically significant.” said Dr Annelies Wilder-Smith, SAGE Technical Advisor.

“As for the vaccine itself, we have not seen it in a trial, there’s no reason to think and no biological causability as far we understand now, that the vaccine could cause thrombo-embolic events itself. However, we have to be open for new events and we have to take it seriously.” Dr Wilder-Smith further said that those, recruited for vaccine testing were intentionally chosen because they were people, who were at high risk of developing blood clots.

“COVID really pre-disposes patients to a hypercoagulable state where, indeed, many of the deaths, that we see in the severe cases are due to thrombo-embolic events.” Dr Wilder-Smith said, ahead of an expected announcement by the European Medical Agency:EMA on the issue on Thursday.

In a statement, released on Wednesday, specifically, addressing the Oxford:AstraZenica suspension by some European nations, the Agency said that it was good practice to investigate the possible linkages, that the benefits of the vaccine ‘outweigh its risks’ and WHO ‘recommends that vaccinations continue’.

**|| England || NHS England Invites Everyone 50-54 for Their COVID-19 Vaccine on the Day It Marks the 100th Day of the Vaccination Programme: 20 Million People Have So Far Been Vaccinated ||**

|| Wednesday: March 17: 2021 || α. The NHS England has invited millions of people, between 50 to 54, in the latest stage of the programme for their vaccines. Today marks 100 days since the NHS began the vaccination campaign on December 08, 2020 and broke ground in the global race to protect people against the coronavirus. People can book their appointments for the two doses of the vaccines at [nhs.uk/covid-vaccination](https://nhs.uk/covid-vaccination). People, who can not go online can call the service on 119.

Healthcare teams continue to urge anyone yet to be vaccinated to take up the offer as around two million additional text messages go out from today with a link allowing people to pick a convenient slot at an NHS vaccine centre or pharmacy-led service through the national booking service website. NHS Chief Executive Sir Simon Stevens, said, "Just 100 days since the NHS gave the world's first COVID jab outside of clinical trials, our vaccine programme passes another milestone as we now invite everyone aged 50 and over to book their vaccination."

The text alerts will be followed up with 02.4 million letters landing on doorsteps later in the week. NHS has already delivered a vaccine to more than 20 million people in England as supplies have flowed since early December, with the NHS committed to offering vaccinations as quickly as available supply allows in the coming weeks.

The latest batch of national invites follows a significant boost to bookings last week, with a major push by text message and letter prompting slots booked, almost, to double in 48 hours from 340,000 on March 07 to 609,000 on March 09 when texts were sent.

Dr Nikki Kanani, GP and NHS England's Primary Care Director, said, "The number of vaccines available to the NHS will continue to go up and down week by week and month by month in line with manufacturers' ability to supply us. But this week and next we have larger supplies, so we want anyone in the top priority groups, people, aged, 50 and older, as well as, those working in health and care and anyone with an underlying health condition, to come forward soon to protect themselves and their loved ones."

NHS has been offering the vaccine to the most at risk people as soon as doses have been made available, in line with guidance from the Joint Committee on Vaccination and Immunisation. More than 10 million vaccines, first and second doses, have been arranged through the NHS National Booking Service.

Text invitations appear as an alert from 'NHSvaccine', including, a web link to click and reserve an appointment at one of more than 300 large-scale vaccination centres or pharmacies across England.

Text invites will, also, be received from local booking services through a GP-led team. Texts will arrive in advance of the standard letter, meaning this could enable NHS to react faster to changing vaccine supplies and fill appointments quickly.

Health Secretary Matt Hancock said, "The UK's vaccination rollout is a national success story. It's a tribute to everyone involved and shows what our country can achieve when we work together."

From the Vaccines Taskforce to the NHS, our armed forces and the people coming forward in their millions to get the jab, this has been a massive national effort. I'm delighted, we are now expanding the rollout and inviting those aged 50-54 to book appointments.

Vaccinations are now being administered at more than 1,600 sites across the country, including, mosques, museums and rugby grounds, with the distribution of centres meaning 98% of the country lives within 10 miles of at least one vaccination service. Everyone will receive a health status check and a pre-vaccination assessment before they have their shot.

## The Distorteddia

Distorteddia or the Distorteddia Conglomerate is made of all the entities, that call themselves 'social media and this and the other, including, the entire jungle of the so called apps, gadgets, contraptions and platforms. There is something, profoundly dehumanising, deeply contradictory and, fundamentally, anti-nature is happening in society, that has been losing its power to the distorteddia or the entire range of distortive, fragmentary and, often, manipulative 'expressions of realities', that are, simply, seeking to mimic the reality and real society: except, these have neither reality nor society in them, whereby people are, simply, taken on the terms and basis of absolute and must dehumanisation. The market has established its grip so that we are herded to one place and are given 'scripts' by which to 'waste away' by, by, simply, being the 'consumers', buying and consuming, while ensuring that we become and remain nothing but a mob and that we are always at the herding place so that the market and the marketeers have everyone at their disposal, when they advertise their offerings and, along the way, save a great deal of money and make a hell of a killing from it.

This distorteddia has been let to grow because the entire 'mechanism' from the states and governments to media and publications to universities and businesses and all other from all spheres and all parts of the world, simply, let everything being dragged along and with such a naive, unquestioning, submissive and bedazzled way, that these agencies of the entire world had offered the best and highest most validation, prestige and recommendations, as well as, free advertisements to these distorteddia conglomerate and with it they amassed vast number of human beings just falling into their nets and the more fell the more billions they made and, now, things are becoming insanely obvious as to how desperately dangerous this is getting. It is time to wake up and do something about it. This distorteddia is the most dangerous development in the human progression but this is more dangerous than just physical annihilation of humanity for it is slaughtering the very humanity we are supposed to be and turning us into a mob.

People have been, increasingly, become nothing more or nothing less than, only, good enough for being part of the mob and staying as such at the herding place, photographed, videod themselves doing nothing and then self-broadcast these goings on of doing and being nothing. People have no other value or virtue in this realm and, thus, sociologically looking at it, one would find and can not but conclude that this phenomenon has developed the following characteristics:

a: That there is no human agency, human mind:soul:will but an 'automated', programmed and manipulated physiology, that does not think, that does not want to learn and process knowledge and information because they have their 'gadgets', 'devices' and contraptions' and the 'script' of 'behaviours, conducts and what and how to be in the distorteddia, to do that for them so that the entire basis of humanity being an agency of a human mind:soul:will has been taken down.

b: This is the pre-condition by which the foundation and pre-requisite technicalities are brought about to convert all physiologies into a mob. A mob is like animals in a stampede: an animal as a mob in a stampede and a human mob both are the same in one fundamental way: neither think. They act in one goal: for humans this is programmed or orchestrated or brewed or manipulated but for animals it is not programmed by anyone but by their very fear and paranoia of losing their lives and in the process freezing in a state of utter and absolute panic and, thus, they run, often, to their deaths. So this mob behaves the way it is programmed and it does not and can not behave any other way for the 'individual', that is a must requisite for thinking, considerate, thoughtful, learning, contemplating and developing mind or the agency of the mind, no longer is existent in this scenario. Only this individuality makes a human being unique and capable of running its own self and own agency. This has been 'terminated' from this distorteddia. This is why in that realm of the distorteddia people behave the way they do: they say anything, they do anything and they do not fall short of doing anything so that all the negative traits of dehumanisation: the lack of common human decency, kindness, respect, regard, care, empathy, solidarity, connectedness, communality and civility and social cordiality etc have been replaced by 'mechanistic' dehumanisations.

In this people are taken onto a 'state', where no one is being or doing but, simply, 'watching' or, rather, watching themselves, as well as others, being and doing nothing. In this they neglect their own self, own health and well being, their own environment and reality, their own individual life, their family life, their social life, the work, cultural and spiritual life. All have been 'connected' to this 'annihilation-machine', that, only, distorts, destroy, devastate, disconnect, disfigure, dismantle reality and humanity in that reality being individual, family, community and society and in this distorteddia does these: makes a great deal of money, herd people, direct, dictate and manipulate people and impose its own 'set of agenda, priority and goals' into the population.

This is the most dangerous developmental stage humanity has reached and it has gone on to challenge, devastate and destroy the very basis of economics, politics, governance, public affairs management systems, rule of law and the delivery, conduct and running of the judiciary, as well as, destroying the learning, enquiring and innovating sense, space, spheres and culture, which have

been brought to a point of, almost, a state of apology, for 'the god' of the distorteddia is utter, sheer and inescapable 'ignorance'. At the same time, seeking and searching for knowledge have been taken over by them as the direct route to 'dictate both what are searched for and what is 'made known' so that all this offers distorteddia to make more money and in this, valid, legitimate, professional, bona fide press and media and journalism, that are, absolutely and fundamentally, vital parts of a democratic society, governance system, judiciary and for social spheres and social and public discourse, have been, almost, killed off.

It is time the world, the world humanity, all the world's states and governments, all agencies of all shapes, sizes, manners, forms and types, as well as, every single human being on earth, in every country and in every nation, in every people and in every society, in every community, in every family must wake up, make a choice, make a stand up and fight this monstrosity of distorteddia and its utter, absolute and comprehensive devastating assault on humanity by these machinations, by these dehumanisations.

**This Is the Body of Work, by Munayem Mayenin, That Has Brought Into Existence the Philosophy and Vision of Humanics**

**Dehumanisation of Humanity: Volume One: Published: July: 2007: 978-1-4477-1330-2**

Mayenin worked and developed the very critique of capitalism and Marxism while at university in which he had envisioned the world's future in humanics for humanity to reach and achieve liberty and equality for all humanity, which capitalism has continually slaughtered and Marxism failed desperately, even, to understand, let alone, to know or show how to seek and achieve them. Some of these works were published in publications in the early 00s and the volume was published as a book in 2007. There are three other volumes of this planned work, yet to be published.

**Humanics The Foundation: Volume One: Published: December 06: 2017: ISBN: 978-0-244-34575-4**

This piece of work elaborated the philosophy of humanics and presented the idea of human enterprise and how it works to enable humanity to conduct the human economical endeavours in humanics.

**Humanics The Humanicsonomics: Volume Two: Published: June 12: 2018: ISBN: 978-0-244-48334-0**

This is the political economics or humanicsonomics of humanics in human enterprise. This volume presents the political economics of humanics and elvisioned world's future as two distinct phases: pre-humanical or Kapitalawnomics phase in which capitalism is saved from pseudonomics and brought under the absolute and complete control and power of the rule of law so to make it serve the people at all times and not the rich and through this phase, humanity brings into existence the humanical Building-Block Foundational Human Rights and end capitalism's Poverty Paradigm, that causes all of the high-cruelties, high-brutalities and high-barbarities, that are inflicted on the vast number of humanity on this earth. Further to this, this work advances the system and mechanism of human enterprise and elvisioned at the end of the development of Kapitalawnomics human societies will have developed enough to be able and equipped to try and seek to bring into existence humanical societies, that will begin to form a grid of humanical societies into a universal humanical civilisation on earth.

**The Humanics Elleesium Declaration 2019: The Humanicsxian Manifesto: Published: April 06: 2019: ISBN: 978-0-244-76474-6**

This short piece of work nano-summarised the entire body of Munayem Mayenin's works on humanics. This calls on the working humanity of the world to rise, organise and united under new and humanical political forces, parties and organisations to seek and try to bring about a humanical world movement to lead humanity to equality and liberty.

**Humanics The Humanicsovics: Volume Three: To Be Published Later This Year**

This volume presents the political philosophy of humanics and the means to deliver that political philosophy by and through humanicsovics, humanical direct form of democracy without party politics whereby each and every individual human being becomes his:her own High Representative and they all run their society's human affairs management together as individuals, working together as scientists and mathematicians without any political parties.

**Alphansum Sovereign Necessarius: Published April 14: 2020: ISBN: 978-0-244-58241-8**

Although, this large volume is of metaphysical work, it has brought the whole humanical universal view in a harmonious outlook, unifying all expressions, fields, areas and arenas of

human existence and in this process this work envisioned the coming into existence the new branches of science, that has already been mentioned.

In his other major bodies of works, that are yet to be published Mayenin has worked on further in elaborating the psychology and social psychology of the zoohumanity, that capitalism and all the dehumanisations it has inflicted on humanity through its enforcement of inequality and the absence of liberty. These as yet unpublished works include: Psychology of Zoohuman, Humanical Jurisprudence, Sociology of Evil, Economics of Squalors: The High-Cruelties High-Brutalities and High-Barbarities of Capitalism, Humanical Moral Science, Social Morality Or Good State, Humanical Civilisation: A Universal Grid of Humanical Societies and Colossus Complexus: Eternally Learning Humanity.

Universe, our home Universana. Dear Reader, we are on the path of humanics, please, tell the world and world humanity that humanics has arrived on earth from ‘the without of human imagination’, learning, questioning and thoughts, gained from the eternal walks of this human soul’s eternal journey on the eternal path of eternal learning, with its humanical metaphysics, humanical philosophy as natural science, humanical psychology, humanical political philosophy, humanical political economics, humanical jurisprudence, humanical sociology, humanical moral science and humanical arealism. For capitalism has created global warming and climate change and wracked the earth with environmental degradations and pollutions in all spheres, where bio-diversity is getting lost at an alarming rate as the earth keeps on being heated up. Humanity is devastated by capitalism’s poverty-paradigm, delivering all its high-cruelties, high-brutalities and high-barbarities. This is why it is paramount that that we speak up and out and try our hardest to inspire faith, hope, determination and resolution among all humanity of this world, women and men, that we shall not just accept this ‘sentence of doom’, that capitalism’s mindless consumerism, infinite greed of infinite profiteering, decadent vogueism and venomous voyeurism, orchestrated by the Distorteddia have brought us and, yet, that we can, we should, we ought, we must keep on trying: ‘to seek to try: to do: to change: to make better the human condition’ and we do so as one humanity, as women and men, working together as one, in unison with the same aim, same goal, same objective: to get all humanity to liberty, equality, fairness and justice in the rule of law in natural justice, with a purpose and meaning to our existence, where we all humanity, with our all-unity and all-diversity, exist as one humanity naturale on one Mother Earth, in one Sunnara, in one Home Bay Milky Way Galaxy in the one Universana with the humanical foundation of faith: humanity is an infinity unfolding itself, in which, we are all-for-one and one-for-all.
