## Editorial

Regine Humanics Foundation Ltd is a humanical human enterprise, registered in England and Wales, as a not-for-profit social enterprise, founded by Munayem Mayenin, to work to promote and take forward the philosophy, political philosophy, political economics and the vision of humanics to world humanity, that calls upon humanity to rise to work for a better human condition for all humanity across the mother earth with the high-humanical principle of 'all-for-one-one-for-all'.

The Humanics Elleesium Declaration 2019 The Humanicsxian Manifesto was published on April 06, 2019, which expanded that call for capitalism has brought humanity nothing but destructions in all engulfing sufferings, hardships, agonies and pains through its poverty-paradigm, its anti-nature construct and functioning so that all it does is creating, expanding, enlarging and enforcing all high-cruelties, high-brutalities and high-barbarities and, at the same time, its infinite greed for profiteering and ever-going consuming, means that it has devastated, poisoned and toxified the entire earth and polluted the natural eco-systems, natural balance and natural bio-diversity and, thus, the whole life, the web and ecology of life and existence on earth are now suffering the devastating impacts of global warming and climate change, as well as, pollution and toxification of all kinds of environments, air and water and waterways and the alarming loss of bio-diversity.

Further, capitalism and because of its developmental history of colonialism, neo-colonialism, imperialism and imperialistic globalisation means that the world has been brought to a state of anarchy and is ravaged by conflicts, wars and a state of lawlessness because its 'mechanism of international law', the United Nations' has been made into a powerless joke while its members, such as, Russia, now massacring humanity, committing war crimes and crimes against humanity in Ukraine in an absolutely monstrous, barbaric, illegal and unnecessary war, while the world, led by America and others, like the European Union., look on with their pathetic 'sanctions' as others like China closes its opportunistic eyes and the rest of the world has taken refuge in saying: Never again! Capitalism has reached its terminal state. The Humanicsxian calls upon world humanity to rise to acknowledge this terminality of capitalism and rise towards humanics: for a better human condition for all humanity across mother earth: all-for-one-one-for-all: liberty and equality for all humanity in the rule of law in natural justice in human enterprise, in direct humanical democracy, humanicsovics, within a Universal Body of and for all humanity on earth: The Universal Assembly of The Humanion.

**|| The Humanion || Ukraine's Heroic Stand for Liberty and Justice Against Absolute Monstrosities Calls Humanity to Make a Stand Against All Forms of Fascism Russian Or Otherwise**

|| Wednesday: April 06: 2022 || á. On February 24, 2022, Vladimir Putin-led Russia invaded Ukraine without any provocation, without any reason whatsoever: opening of monstrosities in a war, violating whatever was left of the international law: the very foundation of it is simple: that the world exists on the principle of sovereignty and territorial integrity of all nation states and that any disputes ought to be sought and achieved through the established mechanism of the United Nations.

Everything crumbles apart once this principle is taken down. Since the invasion what Russia has been doing is, simply, beyond any precedents in recent times, since the World War Two.

Despite the astonishing, brave, courageous and inspiring fight of self-defence of the Ukrainian people, their state and government, particularly, the President of the Country, Mr Volodymyr Zelenskiy, for liberty, nationhood, justice and humanity shown against that barbaric, illegal and brutal invasion and war. Russia has been committing many kinds of crimes: violations of international law, crimes against humanitarian laws, committing alleged crimes of genocide, crime against humanity, crimes of using rape as weapon of war and the absolute and comprehensive destructions of cities and towns, using blockade as means to hold civilians as hostage and human shield and the list of these crimes goes on of the monstrosities Russia has been conducting.

Yet, the world seems in disarray: despite NATO leaders were gloating about their 'unity' and 'togetherness' against Russia! What good is it, this NATO unity and togetherness to the Ukrainian people, who find themselves being massacred by a power, led by Vladimir Putin, who has had the powers to change his Country's constitution far more easily and as many times as he wanted to, than changing toilet papers! And all the while NATO and the European Union and the rest of the world kept 'keeping in line' with Putin and his Russia, that he had taken into a fast regression, which had gone far beyond the USSR and modern latest Tsarist Russia and taken to a far earlier time. In that process, Russia had regressed into not medieval but far earlier a time when racism, fascism and all kind of extreme brutal ideas and phenomena were common place.

This happens because following the collapse of USSR the world, the five UN Security Council Members with veto powers and everyone else closed their eyes and given Russia everything, that belonged to the USSR, including, the SC seat and veto powers. No one said: hold on a minute: that seat and that veto belonged to a body of USSR made of many nation states, part of the USSR, Russia was only one of them. Russia, therefore, can not be given the SC seat or the veto power. No one said a word and Russia, a true imposter at the UN, sat in the SC with the Veto power and was given the power to apportion all the wealth, assets and foreign reserves and all the USSR powers and arsenals, including, the nuclear weapons. Then, the rest of the world, the west, the European Union and, every other entity with them, went courting Putin and his Russia while he kept on invading and threatening former USSR nation states, such as, Georgia and in Chechnya he conducted 'Ghanzis Khan style atrocities. Later on, fast forward, 2014, he cut off parts of Ukraine and the world did nothing. No one saw anything wrong with that illegal annexation of Crimea from Ukraine. 2014 onwards, Ukraine had been fighting on alone and there arrived February 28 and the world took an opportunistic, immoral, absolutely unrighteous and a coward's stand. NATO went into propaganda drive. China went blind-opportunistic. European Union kept shouting up about sanctions. A state as powerful as Russia, led by this Putin, who is an effective dictator, like a Tsar like Peter, is not going to stop because there are some sanctions placed against his country. And what a farce: EU is applying some sanctions while sending billions of dollars to Russia almost on a daily basis because they could not stop using Russian fossil fuel!

While Ukrainian President Mr Volodymyr Zelenskiy, such a courageous soul, keeps asking for help and everything falls into deaf, hard and cruel darkness of silence and indifference. The world watches over these absolutely monstrous atrocities, these killings and slaughter and absolute termination of places of human habitation and people, humanity. It is beyond belief as to how a world just stands and watches while a monstrous fascist power like Russia massacring a people, conducting genocide and crime against humanity. This goes to show that this world and its so-called order have fallen flat on its face.

The United Nations has now been absolutely buried into dust and international law simply is washed away into the dustbin of history. Capitalism still goes on and it has created this state of absolute anarchy, lawlessness and dysfunctional banal a state of immorality, unrighteousness and sociology of evil. What Russia is doing is nothing but absolute evil but facing it the rest of the world is doing nothing but accepting, tolerating and appeasing that absolute evil. Capitalism has no morality and the bankrupt philosophy, bankrupt political philosophy and gone-mad-and-wild political economics have brought this to the world. Following the horrors of the pandemic the world and the world's poor have been struggling their hardest and now here we have the war mongers are running a havoc.

Everyone is in a competition to increase defence spending! The world as it stands now already spends obscene and grotesque amount of financial, natural and human resources in weapons, arms, arsenals and bombs and fighting machines, as well as, in maintaining, training, feeding and paying large bodies of humanity in various armed forces, doing nothing while hunger and poverty suffocate and kill humanity across the earth! It is absolutely immoral, grotesque and obnoxious a thing. And now the whole NATO and the European Union and everyone else are joined this grotesque competition to increase defence spending while more than 13 million human beings die every year from avoidable environmental causes, countless wars are killing hundreds of thousands of people across the earth, hunger, malnutrition and many other treatable diseases kill millions and more than half of humanity never set foot in a school and homelessness, rough-sleeping, unemployment, unemployability and the very basic, such as, water, toilet and sanitation etc do not reach a huge portion of humanity and added to this are the terrible state of the earth, the global warming and climate change, the environmental pollution and degradation, air pollution, plastic and microplastic pollution, bio-diversity loss and much more besides!

This is, in short, a bankrupt world under capitalism as pseudonomics, that is at its terminal state. The only hope for humanity is seen not anywhere else but in Ukraine: the people of Ukraine are the only light in this world today: the violated and wronged but a righteous people of humanity. And this light is telling us, the world humanity, that this world is a monstrous world where monsters and monstrosities and the sociology of evil, that sustain, strengthen and empower them, are not fought and defeated but accepted, tolerated and appeased but the Ukrainians are making a stand and making a fight.

The world must wake up and realise this: this world as it stands, can not go on: a new world must be created. This monstrous world can not sustain itself: capitalism is dying and it is killing all and sundry. The Humanicsxian is calling on the world to rise up and take stalk of the anarchic, lawless and monstrous a state of the world and world humanity and do something about it. A better world, a better human condition is possible. That is not and can not be found in the olden texts and ancient theories and isms. A new world must come out of new ideas, new philosophy, new political philosophy, new political economics and new public affairs management system, new sociology, new social psychology, new jurisprudence and whole new way of being, doing and becoming humanity naturale as opposed to the zoohumanity we have been made to become.

## || Global Warming and Climate Change ||

### The Intergovernmental Panel on Climate Change: It's Now or Never to Succeed in Limiting Global Warming to 01.5 Degrees

|| Wednesday: April 06: 2022 || α. The new flagship Report of the Intergovernmental Panel on Climate Change:IPCC on climate change, out Monday, April 04, says that global net anthropogenic emissions have continued to rise across all major groups of greenhouse gases. To limit global warming to around 01.5C or 02.7°F, the IPCC report insisted that global greenhouse gas emissions would have to peak before 2025 at the latest and be reduced by 43% by 2030.

Methane would, also, need to be reduced by about a third, the Report's authors continued, adding that, even, if, this was achieved, it was, almost, inevitable that we will temporarily exceed this temperature threshold; although, the world could return to below it by the end of the century. "We are at a crossroads. The decisions we make now can secure a liveable future." said IPCC Chair Mr Hoesung Lee. "I am encouraged by climate action being taken in many countries. There are policies, regulations and market instruments, that are proving effective. If, these are scaled up and applied more widely and equitably, they can support deep emissions reductions and stimulate innovation."

"It's now or never, if, we want to limit global warming to 01.5°C or 02.7°F; without immediate and deep emissions reductions across all sectors, it will be impossible." said Mr Jim Skea, Co-Chair of IPCC Working Group III, which released the latest report. Global temperatures will stabilise when carbon dioxide emissions

reach net zero. For 01.5C or 02.7F, this means achieving net zero carbon dioxide emissions globally in the early 2050s; for 02C or 03.6°F, it is in the early 2070s, the IPCC Report states.

“This assessment shows that limiting warming to around 02C still requires global greenhouse gas emissions to peak before 2025 at the latest and be reduced by a quarter by 2030.” A great deal of importance is attached to IPCC assessments because they provide governments with scientific information, that they can use to develop climate policies. They, also, play a key role in international negotiations to tackle climate change.

Among the sustainable and emissions-reducing solutions, that are available to governments, the IPCC Report emphasised that rethinking how cities and other urban areas function in future could help significantly in mitigating the worst effects of climate change. “These reductions can be achieved through lower energy consumption, such as, by creating compact, walkable cities, electrification of transport in combination with low-emission energy sources and enhanced carbon uptake and storage using nature.” The Report suggested. “There are options for established, rapidly growing and new cities.” it said.

Echoing that message, IPCC Working Group III Co-Chair, Mr Priyadarshi Shukla, insisted that the right policies, infrastructure and technology to enable changes to our lifestyles and behaviour, can result in a 40 to 70% reduction in greenhouse gas emissions by 2050. “The evidence, also, shows that these lifestyle changes can improve our health and well-being.”

Indicating that harmful carbon emissions from 2010-2019 have never been higher in human history, is proof that the world is on a ‘fast track’ to disaster, Mr António Guterres, the United Nations Secretary-General has warned, with scientists arguing that it’s ‘now or never’ to limit global warming to 01.5 degrees.

Reacting to the latest findings of IPCC, the UN Secretary-General insisted that unless governments everywhere reassess their energy policies, the world will be uninhabitable. His comments reflected IPCC’s insistence that all countries must reduce their fossil fuel use substantially, extend access to electricity, improve energy efficiency and increase the use of alternative fuels, such as hydrogen.

Unless action is taken soon, some major cities will be under water, Mr Guterres said in a video message, which, also, forecast unprecedented heatwaves, terrifying storms, widespread water shortages and the extinction of a million species of plants and animals.

“This is not fiction or exaggeration. It is what science tells us will result from our current energy policies. We are on a pathway to global warming of more than double the 01.5-degree Celsius, or 02.7-degrees Fahrenheit limit, that was agreed in Paris in 2015.”

Providing the scientific proof to back up that damning assessment, the IPCC Report, written by hundreds of leading scientists and agreed by 195 countries, noted that greenhouse gas emissions generated by human activity, have increased since 2010 across all major sectors globally. In an op-ed article, penned for the Washington Post, Mr Guterres described the latest IPCC Report as ‘a litany of broken climate promises’, which revealed a ‘yawning gap between climate pledges and reality.’

He wrote that high-emitting governments and corporations, were not just turning a blind eye, they are adding fuel to the flames by continuing to invest in climate-choking industries. Scientists warn that we are already perilously close to tipping points, that could lead to cascading and irreversible climate effects.

An increasing share of emissions can be attributed to towns and cities, the Report's authors continued, adding just as worryingly, that emissions reductions clawed back in the last decade or so have been less than emissions increases, from rising global activity levels in industry, energy supply, transport, agriculture and buildings.

Striking a more positive note and insisting that it is still possible to halve emissions by 2030, the IPCC urged governments to ramp up action to curb emissions. IPCC, also, welcomed the significant decrease in the cost of renewable energy sources since 2010, by as much as 85% for solar and wind energy and batteries. Global net anthropogenic emissions have continued to rise across all major groups of greenhouse gases.

**Billions of People Are Still Breathing Unhealthy Air: WHO Estimates More Than 13 Million Annual Deaths Are Due to Avoidable Environmental Causes**

|| Wednesday: April 06: 2022 || α. Almost, the entire world population, 99%, breathes air, that exceeds the World Health Organisation:WHO air quality limits and threatens their health. A record number of over 6,000 cities in 117 countries are now monitoring air quality but, the people living in them are still breathing unhealthy levels of fine particulate matter and nitrogen dioxide, with people in countries with low and middle-income suffering the highest exposures.

The findings have prompted WHO to highlight the importance of curbing fossil fuel use and taking other tangible steps to reduce air pollution levels. The World Health Day, marked on April 07, will focus global attention on urgent actions needed to keep humans and the planet healthy and foster a movement to create societies focused on well-being. WHO estimates that more than 13 million deaths around the world each year are due to avoidable environmental causes.

Released in the lead-up to World Health Day, which this year celebrates the theme, 'Our Planet, Our Health, the 2022 update of the World Health Organisation's air quality database introduces, for the first time, ground measurements of annual mean concentrations of nitrogen dioxide:  $\text{NO}_2$ , a common urban pollutant and precursor of particulate matter and ozone.

It, also, includes measurements of particulate matter with diameters equal or smaller than  $10\ \mu\text{m}$ :  $\text{PM}_{10}$  or  $0.25\ \mu\text{m}$  or  $\text{PM}_{0.25}$ . Both groups of pollutants originate mainly from human activities, related to fossil fuel combustion. The new air quality database is the most extensive yet in its coverage of air pollution exposure on the ground.

Some 2,000 more cities or human settlements are now recording ground monitoring data for particulate matter, PM10 and/or PM02.5, than the last update. This marks an almost six-fold rise in reporting since the database was launched in 2011. Meanwhile, the evidence base for the damage air pollution does to the human body has been growing rapidly and points to significant harm, caused by, even, low levels of many air pollutants.

Particulate matter, especially, PM02.5, is capable of penetrating deep into the lungs and entering the bloodstream, causing cardiovascular, cerebrovascular stroke and respiratory impacts. There is emerging evidence that particulate matter impacts other organs and causes other diseases as well. NO2 is associated with respiratory diseases, particularly, asthma, leading to respiratory symptoms, such as, coughing, wheezing or difficulty breathing, hospital admissions and visits to emergency rooms.

WHO last year revised its Air Quality Guidelines, making them more stringent in an effort to help countries better evaluate the healthiness of their own air. “Current energy concerns highlight the importance of speeding up the transition to cleaner, healthier energy systems.” said Dr Tedros Adhanom Ghebreyesus, WHO Director-General. “High fossil fuel prices, energy security and the urgency of addressing the twin health challenges of air pollution and climate change, underscore the pressing need to move faster towards a world, that is much less dependent on fossil fuels.”

Steps governments can take to improve air quality and health

A number of governments are taking steps to improve air quality but, WHO is calling for a rapid intensification of actions to:

- :: Adopt or revise and implement national air quality standards according to the latest WHO Air Quality Guidelines

- :: Monitor air quality and identify sources of air pollution

- :: Support the transition to exclusive use of clean household energy for cooking, heating and lighting

- :: Build safe and affordable public transport systems and pedestrian- and cycle-friendly networks

- :: Implement stricter vehicle emissions and efficiency standards; and enforce mandatory inspection and maintenance for vehicle

- :: Invest in energy-efficient housing and power generation

- :: Improve industry and municipal waste management

- :: Reduce agricultural waste incineration, forest fires and certain agro-forestry activities, e.g, charcoal production

- :: Include air pollution in curricula for health professionals and providing tools for the health sector to engage.

Higher income countries see lower particulate pollution but, most cities have trouble with nitrogen dioxide. In the 117 countries monitoring air quality, the air in 17% of cities in countries with high-income fall below the WHO’s Air Quality Guidelines for PM02.5 or PM10. In countries with low and middle income air quality in less than 01% of the cities complies with WHO recommended thresholds.

Globally, countries with low and middle income still experience greater exposure to unhealthy levels of PM compared to the global average but, NO2 patterns are different, showing less difference between the countries with high and low and middle income.

About 4,000 cities or human settlements in 74 countries collect NO<sub>2</sub> data at ground level. Aggregated, their measurements show that only 23% of people in these places breathe annual average concentrations of NO<sub>2</sub>, that meet levels in the recently updated version of WHO's Air Quality Guidelines.

"After surviving a pandemic, it is unacceptable to still have seven million preventable deaths and countless preventable lost years of good health due to air pollution. That's what we're saying when we look at the mountain of air pollution data, evidence and solutions available. Yet, too many investments are still being sunk into a polluted environment rather than in clean, healthy air." said Dr Maria Neira, WHO Director, Department of Environment, Climate Change and Health.

People living in countries with lower and middle income are the most exposed to air pollution. They are, also, the least covered in terms of air quality measurement but, the situation is improving. Europe and, to some extent, North America, remain the regions with the most comprehensive data on air quality. In many countries with low and middle income, while PM<sub>02.5</sub> measurements are still not available, they have seen large improvements for measurements between the last database update in 2018 and this one, with an additional 1,500 human settlements in these countries monitoring air quality.

The evidence base for the harm, caused by air pollution has been growing rapidly and points to significant harm, caused by, even, low levels of many air pollutants. Last year, the WHO responded by revising its Air Quality Guidelines to reflect the evidence, making them more stringent, especially for PM and NO<sub>2</sub>, a move strongly supported by the health community, medical associations and patient organisations.

The 2022 database aims to monitor the state of the world's air and feeds into progress tracking of the Sustainable Development Goals.

|| Wednesday: April 06: 2022 || α. The Vision and Philosophy of Humanics has been developed by the life's philosophical works of the Thinker Munayem Mayenin, that have constructed the philosophy, metaphysics, political philosophy, political economics, humanical moral science, humanical jurisprudence, humanical social science and a whole body of new branches of learning, knowledge and wisdom, including, Duantum Physics and Cosmogeogenomodynamics on the high-humanical truth that humanity is an infinity unfolding itself in which humanity naturale is nothing but an eternal learner on the path of continuous learning, progress, advancement and development.

The Long Walk to Humanics: Human Enterprise is an essential and elemental component of humanics or its political economics, which is an idea in which no one owns anything but everyone belongs to the whole as the whole belongs to everyone lawfully and equally and, it neither believes in nor makes money but human utilities, needs, aspirations, creativity, imagination and dreams are served without money, where everyone works and creates for others as others create and work for them, thus, bringing in meaning and purpose to life along with it come natural justice, equality and liberty, that establish a true civilisation. And in one word, this system of human affairs management or political economics is called Humanics and a society, that runs itself in humanics is called a humanical society. Humanics is the philosophy, that sees all humanity with all its oneness of unity

and with all its diversity as one-whole-infinity of an ecology of goodness, as humanity naturale, endowed with infinite imagination, ingenuity and creativity, nanocromised in the finiteness of the human physiology and psyche and that are the elemental and inalienable characteristics of humanity, that reside in its core architectonics of human rationality, in whose architecture, mechanism, system and processes, as well as, their functioning and dysfunctioning we find ingrained the laws of not just morality but mathematics, logic, science and imagination, as well as, the sign-posting that tells us that there exist similar but in a far more mammothseismic magnitude Universal Laws by which the entire Delta of the Universe exist and perish by, which show us that being able to exercise the free will or choice is the highest of all its virtues and existential necessities and whereby it comes to find that without this ability to be able to exercise free will and conduct choice it can not remain humanity naturale and in order for it do reach such a state it must, therefore, seek and strive to reach liberty and equality by virtue of which it achieves that state, that enables it to practice free will and choice. Liberty and equality are such states without which humanity can not exist as humanity naturale. Humanics is the philosophy, that brings these into a vision whereby humanity comes to exist as humanity naturale at liberty and equality under the rule of law and in natural justice. Humanics, therefore, means the philosophy, that inspires humanity to march towards reaching that ideal state of existence where it gets to be at liberty and equality so that it can now exist as moral and ethical being in the exercise of free will or free choice by which it crafts its existence and with it, it seeks to achieve a meaning and purpose of existence.

"Humanity will continue to live an inferior life than what is possible until the two halves, women and men, with all individuals in them, are absolutely, fundamentally and jubilantly equal at liberty. Humanity, therefore, is not and can not be free until all humans are equals for only by the yardstick of this equality their state of being free can be measured. In other words, there can not exist liberty

**Humanity: An Infinity Unfolding Itself**

unless there exists equality between and among all humans and this state of equality can not come to exist so long there remain two groups of humans: the powerful and the powerless: whereby the former controls the later and creates, maintains and carries forward the perpetual state of inequality: economically, politically, judicially, constitutionally, socially, culturally and spiritually. To reach the state of equality and liberty, the task before humanity is, therefore, to change this state by taking away ownership and money and, with them, the power they generate and confer, that lets one small group of humans, the powerfuls, subjugating the vast multitude of humans, the powerless, under their dictatorship. For only by taking away 'the gun' of the power of the powerfuls, humanity can bring about the state of liberty, as well as, equality at once: equality and liberty can not and do not exist separately but together and simultaneously. Equality and liberty exist as the Promethumean fire: in which there is the light and there is the heat in one flame: the humanion stands here on the path of humanics in human enterprise, working to establish a humanical society: a state of liberty for all humanity at equality. The Promethumean is used here where Prometheus is not seen as a man but a human. In such a humanical society all humans are, for the first time, in human history of progression, set free at liberty and at equality for there remain no powerfuls, who derive their power from ownership and from their possession of money and wealth and, thus, there remain no powerless for no one has any power to dominate others under their prowess." The Humanics Elleesium Declaration 2019: The Humanicsxian Manifesto: Munayem Mayenin: ISBN: 978-0-244-76474-6: Published: April 06: 2019

But until Humanity has achieved the conditions to fully discard capitalism and put it in the archives of history of human development and begin to craft humanics, it must be brought under, run and managed by the rule of law and the absolute yardstick of that law must be that it must always serve the entire people of a country:nation and of the whole earth. Capitalism can not, as it stands, nor can it be modified to do so, so long it remains a system of money to make profits, deliver 100% employment. Never can it deliver this. Thus, societies can not 'punish' the poor and jobless people, who fill this 'basket' perpetually, for its failures

and injustices, that it causes, which happen because of capitalism's poverty-paradigm, particularly, now that capitalism has been transformed into pseudonomics and this is why all over the earth capitalism delivers and enforces all high-cruelties, high-brutalities and high-barbarities to a vast majority of the populace, through poverty-wage, poverty-social security where it exists and where it does not, absolute destitution warrant. It does so by creating sociology of squalors across societies where it creates and enlarges the sociology of evil and with help of the distortededia and dehumanisation it transforms humanity from being humanity naturale into the absolute exact opposite of it and creates zoohumanity.

And, thus, humanics is a system of public affairs management system, that comes as two distinct phases of development in which pre-humanical phase transforms, re-architectures, reshapes and re-orientates capitalism, by ending pseudonomics and creating a new universal state and government for all humanity across mother earth, whereby every single member of the humanion becomes its members and their states become part of this Body by virtue of this fact that their citizens have already joined this Body. This would be The Universal Assembly of the Humanion with its jurisdiction spreading across the Universe, the whole of the Universana and across the whole earth and across all humanity. This Body shall have its own Central Bank and Own Currency, which shall become the International Currency, with its executive, legislature, judiciary, prudential, auditing and regulatory mechanisms and this Body shall bring in the entire architectonics, architectures, mechanisms, systems, processes, frameworks, procedures and protocols to bring capitalism and the world market, the whole world's economies and the entire range of share markets under the absolute dictate, direction, power and prowess of the rule of law so that it always serves the entire humanity as a whole across the earth and in every nation state. In this process this Body creates new humanical Building-Block Foundational Human Rights, which are:

- A: Absolute Right to Live in Clean, Healthy, Safe and Natural Environment
- B: Absolute Right to Breathe Natural, Fresh, Clean and Safe Air

These would end overnight all of capitalism's high-cruelties, high-brutalities and high-barbarities and within a short while the state of the human condition across the earth would be seismically different, which shall act and work to develop the prospects of humanical societies and this stage of pre-humanical or Kapitalawnomics stage would create the conditions for societies to enter and begin creating humanical societies where ownership and money are absolutely, completely and eternally eradicated so that the very ideas of ownership and money exist not and there now shall come to exist humanical societies, that are run under the political economics of human enterprise where all humanity, that are capable and willing to work will be working and everyone's needs will be met from the highest possible economic output the workforces shall produce. The pre-humanical phase of Kapitalawnomics is still run by political parties but as societies enter humanics political parties cease to exist for now every single member or citizen of every nation has the highest degree of education, learning, knowledge, wisdom, expertise, insight, competencies and skills and they all act as their own High Representatives and they are organised in running the system of public

affairs management, called, humanicsovics, whereby about 50,000 people are organised as the foundational people parliament whereby all these 50,000 people join in and run and conduct the affairs of their individual people parliament. All the people parliaments are then connected together and architected in through a constitutional arrangement so that there arises the national People Parliament. Mind that it is not People's Parliament but these are people themselves organised as a parliament. Therefore, representative democracy shall enter the museums while the most empowered, the most enfranchised and the most enlightened human beings take charge of their own destiny both for singular individual and the plural or social existence under the rule of law in natural justice.

All these humanical societies shall create a grid of a humanical civilisation across Mother Earth, whereby all humanity shall now have reached liberty and equality, purpose and meaning for existence under the rule of law and in natural justice where the Universal Assembly of the Humanion becomes the flowing ocean of all humanity merging together on that grid of humanical societies in that grid and humanity because it has reached liberty, equality, meaning and purpose and reached the rule of law and natural justice it now has, once again, become humanity naturale and that humanity naturale keeps on being and doing exactly that: humanity naturale on the eternal path of eternal learning, progress, development and advancement as they keep on going, being an infinity unfolding itself.

So long scenes like these where the rough sleepers, homeless, hungry and destitute souls are treated with brutal, barbaric, cruel and absolutely dehumanised, demeaning and ruthless degradation and contempt, humanity can not claim that it has learnt the 'C' of Civilisation. And the forces, groups, people and political parties, that do not see this as to how horribly, terribly, dangerously counterproductive all this is to a society and how cruel, barbaric, brutal these are to human psyche and physiology and to human progress are harming the very humanity they claim to serve. For it is like society has deliberately stabbed majority of its members with terminal blows and let them bleed, suffer in agony of pain and infection and die a lingering, slow-poisoned-death without any care being shown to them and society simply dehumanises itself so that it is able to look at all this agony, strife, pain and suffering and pretends that it does not see. But this won't be accepted by the multitude of humanity and the signs of which have been increasingly becoming more and more civilisation, that is supporting, nurturing, enhancing and developing all civic and humanical evident. This is not acceptable nor is supportable nor can it be left to continue to inflict miseries on humanity.

Therefore, humanics invites you to rise to see the vision and philosophy of the future of humanity it presents before you and let us go forward to rise to seek to try to do to change to make better the human condition. World's all humanicsxians unite and rise to work together to bring about foundational, monumental, seismic and paradigm-shifting change. The future of humanity is in humanics. This pandemic has shown absolutely clearly, with particular regards to global warming, climate change, environmental degradation, pollution and toxification all expressions of all kinds of environments and the sheer level, degree and magnitude of terrible poverty, hunger, malnutrition and countless other evils because of the poverty-paradigm of capitalism and its infinite greed for profiteering, its poverty-wage, poverty-social security and destitution-warrant to working and non-working humanity, the poorest and most vulnerable humanity of societies, that capitalism

in pseudonomics is not only unsustainable but, also, it is morally repugnant and it is absolutely

insupportable for it stands for nothing but enforcing all high-cruelties, high-brutalities and high-barbarities to the vast majority of humanity. We can do infinitely better: in humanics: in its two distinct phases: with pre-humanical Kapitalawnomics and the humanical phase in human enterprise and humanicsovics we can reach a state, that no humanity had ever been able to dare to imagine possible. It is possible because there is humanics. Believe and rise to stand and work for a seismic revolution to transform everything into an infinitely better a world for an infinitely better humanity in an infinitely better human condition. And, all humanity of the whole earth are one and the same unity of one ecology of infinite goodness nanocromised in our finite beings. We are one and we are an infinity unfolding itself. The whole Mother Earth's all humanicsxians unite and get to work.

Where are you the younger generations of this humanity: rise to see the fact that the dawn of humanics has dawned. It is your time to begin the dawn chorus today so that it wakes all humanity up for organising the largest feast for all humanity across Mother Earth where all individual human beings sit at the same table of the feast, all at liberty and equality, under the rule of law in natural justice, to share the bounties of Mother Nature and the joys and gifts of human works and labours in such a world where we shall have to take our children and grandchildren to history museums for them to learn about historic high-cruelties, high-brutalities and high-barbarities, that would teach them but make them terribly sad for some days by which they shall recover back and become even better humanity than we have ever been or could or might have been or ever dreamt about being or becoming.

About humanics there's much to read, far much to study; much to wonder, think, question, analyse, compare and contemplate about. Rise: Go: A Step at a Time.....

## **Dehumanisation of Humanity**

**This work is based on this fundamental**

People are free because they are equal and they are equal because they are free. Without equality in existence liberty cannot exist, and without liberty in existence equality cannot either. This is the rationale, in which a new civilisation must be born to replace this uncivilised, ruthless and brutal system of so called civilisation; that is based on power, rooted in money, owning, winning and pride, that is expressed and exercised in the fiercest of competition and, that is run like an excellent machine, and that tries to put the mask of ration in the ugliest of irrationality and, that waters and nurtures inhumanity and bars all the avenues of human potentials to be-to be free and equal and to live and deny to accept a state of merely staying alive.

## || The Larin Paraske Maxim Or Oath: To Do No Harm to Anyone Or Anything ||

There can not be any sustainability until and unless we take the view that sustainability comes as philosophical, political philosophical, political economical, ethical, moral, sociological, educational, jurisprudential, socio-cultural and ecological and humanical spiritual so that we are able to create a sustainable 'architecture' of existence in a clean, green, circular and sustainable political economics, that underpins all forms and expressions of sustainability and when such an 'architecture' exists within the Larin Paraske Maxim or Oath: Do No Harm to Anyone or Anything: all things and all living forms must have equitable status in the sphere of all existence or all life on earth, with an emphasis on the Universana. Because humanity does not just exist on earth but it does so in the Sunnara, in the Home Bay of the Milky Way Galaxy in the vast expanse of the Universe, our home Universana.

# The Humanics Elleesium Declaration 2019 The Humanicsxian Manifesto

|| Munayem Mayenin || á. To begin again. Long, long, long way away from the days of roaming in the high-clouds of the University Campus, developing the ideas and works of Dehumanisation of Humanity, that will pave the way for humanics in the eighties; here we are. We had begun a conversation; small but hopeful for the way forward: to keep on going with our little minority voice, that invites the world and world humanity towards a better human condition from this nightmare, imposed on the world by and through capitalism. The Existence Rebellion began here and all around the world but, despite the protesters focusing on climate change and global warming and the world's failure in responding to the existential challenges, that bring forth, the fact remains that this state of the world, the state of the earth and the state of humanity on earth have been created by ruthless, dogged and ever-increasing consumption and consumerism, conducted by and through capitalism regardless of the costs and consequences in the pursuit of ever-increasing greed for profiteering and robbing off that profit.

Climate change, global warming, destructions and devastations, caused in all expressions of the environment and their causative resultant devastations these have inflicted on the entire ecology of life on land, on fresh waterways and marine eco-systems, the horrendous environment in cities and towns, that are going beyond the limit of human habitation because of the pollution, the air pollution and all the plastics pollution, i.e, plastic, micro and nano and the ever-going assault of the air quality through continual usage of fossil-fuel-burning means of transport are all inter-connected to the same cause: capitalism's yardstick is

making profit and keeping on the path of making it bigger and larger with time. It has no other yardstick. In order to do this, it has brought us down to this whereby the entire life's ecology is being devastated.

Added to that the entire range of socio-political, economical, governantal and jurisprudential disempowerments and disenfranchisements means that inequality has been growing, education is going backward, human rights are becoming more and more thinly-wrapped glorified declarations while poverty, hunger, mal, severe and acute malnutrition and death by endless preventable causes from illnesses to road accidents, from breathing in toxic air or living in dangerously unhealthy environment. Added to this unemployment, unemployability, lack of education and educational rights, lack of life-long learning, low wages, homelessness and general cut-backs and withdrawal of investments in all statutory, civic and communal services means that there is advancing the sociology of evil in sociological squalors across the earth: from the least developed to the most advanced.

All this must be seen as connected and originating from the same 'causing apparatus', which is capitalism and nothing can be resolved until we see the way forward is not to carry on with this. Nothing will change capitalism and the way it operates. Humanity must rise towards a post-capitalist, post-marxist world vision from where humanity begins again: To seek to live and exist as part of nature without seeking to dominate and devastate and destroy it in the process but to do so as the custodian of nature and keep on seeking towards that path:

To seek and achieve liberty for all humans, who are at liberty because they all are now equal to each other, at all times, under the law, who live by the rule of law in natural justice, where a purpose and a meaning of existence is achieved for and by every human soul, where humanity has 'no gun' holding it to ransom. That gun is the power of ownership. Taking that ownership and money out of the equation, eradicating it fully so that no one and nothing can own and everything belongs to all and everyone under the law, equally at all times. The public affairs management system is run through a direct form of democracy, humanicsovics, where each and every human soul is her:his own High Representative.

This is the vision of humanics of a humanical society. Capitalism and nature are two absolutely incongruent things: they can not exist together. We, therefore, must look hard and seek for evidence in the museum of history to find endless plethora of evidence as to how capitalism and nature can not exist together. Nature says: I created this human and it must exist. Capitalism sentences that human to live on the street, die of hunger, cold and heat or rain or its mother must die as she gives birth to a child, that will perish soon. Nature and capitalism can not exist together. Humanity must seek to get on the path to move this obstacle, this barrier, this challenge to natural human existence and life and the entire web of the ecology of life on earth, this capitalism, out of the way so to create humanical societies on earth. Humanics invites everyone to keep on questioning this imposed 'strait jacket' of capitalism on earth, on humanity so that it has been devastating the earth as it dismantles, disfigures and devastates the very humanity we are. It is time the world and world humanity challenge the status quo and challenge and move away this capitalism's barriers on the path of humanity naturale to exist as natural humanity in and as part of mother nature and exist in natural justice, in the rule of law and keep on walking on the path of eternal learning and continual development and progression. This is a long walk, the route is difficult and challenge-strewn but must we keep on seeking to get on this long walk and keep on walking: for capitalism has brought us to the shores of all round deaths, destructions, devastations, suffering, agony and misery for the vast chunk of humanity across mother earth and it can not be let to keep on going, doing the same. We invite you all to widen the view and as you do so we urge you to nano-adjust that view so that the entire range of expressions of realities are understood in

their proper sense. Taughtologies will not lead us to discovering anything seismic and regurgitating these taughtologies will not lead us to anything fundamentally different. It is time for us to rise to seek and craft that vision of humanity as humanity naturale.

Along these lines, The Humanics Elleesium Declaration 2019: The Humanicsxian Manifesto, by Munayem Mayenin, has been published on April 06: 2019, with the core vision of humanics for the world humanity to peruse and raise wider, vital and paramount questions about the human condition. The world has been brought to a state of 'stuck': where nothing happens other than things keep on getting worse and more devastated but everything on the same token stay the same. Time, may, go and new US presidential elections come or elections at other places do and players are up and running the same old-scripted show and people are asked to vote for A, that is like the B party, the difference between them is: A is run by the likes of that, who run B. Nothing will change until the challenging questions, meet deafening silence for capitalism has no answer nor can Marxism provide the solutions: for one can not get to the right answers, if, one is asking the wrong question. It does not matter who owns so long ownership remains inequality shall remain existing because there are 'owners and there are not owners or there are powerfults and there are powerless. Not only in this people are not equal but, also, they are not at liberty for those, holding the gun of power over the vast multitude determine the state and quality of existence for them. Without taking that gun away liberty can not be brought to existence and unless liberty comes to exist equality can not exist.

The Declaration, in its The Humanicsxian Compact, calls for the 'One World's One Working Humanity Unite Organise And Rise As One': "Karl Marx was the first philosopher to teach us some fundamentals: a: that it is Philosophy, that we need and, that, it, Philosophy, needs not only to seek to try and explain the world but change it, b: that the world is ONE with all her problems and prospects, c: that this world, therefore, must UNITE to secure change, d: that change happens by the 'powerfults' for their own vested interests and benefits, while subjugating most others, ensuring a life of absolute, rotten and cruel indignity, hardship and suffering for them and their future generations, unless REVOLUTIONARIES UNITE and INITIATE a change, that is beneficial to all, e: that there is no other way of achieving 'positive' change but that we seek and strive as determinedly, as resolutely, as absolutely, as possible to achieve it. And from here we, must, take our first step and go forward: that history is not a living organism and it is neither a product of hatred nor of class struggle; rather, it is that, what we seek to make it; if, we do not take part in the making of it, it is going to serve only those, who want to dominate the majority. If, we do not have any power, as we don't, for most people are absolutely powerless against the system's almost-infinite' prowess, than the history shall continue to be made by people like Bonaparte, like Hitler, by despots and dictators and by those, who pretend and spend millions to make people believe that they are 'people's champions. If, on the other hand, we take the view, that it is us, the humanion, as the metaphorical physiology of the entire humanity, where each individual human being is and behaves and acts like a cell does in a body: always, working together with other cells, not working against each other, in unison to achieve continuous homeostasis, harmony, sustenance and progression of life and the human condition, who make history, than, we, must, take charge of making history, than, we, must, but this we start with an I, stand up to the mark and go about making and shaping that history."

In its opening, The Declaration says: "Humanity will continue to live an inferior life than what is possible until the two halves, women and men, with all individuals in them, are absolutely, fundamentally and jubilantly equal at liberty. Humanity, therefore, is not and can not be free until all humans are equals for only by the yardstick of this equality their state of being free can be measured. In other words, there can not exist liberty unless there exists equality between and among all humans and this state of equality can not

come to exist so long there remain two groups of humans: the powerful and the powerless: whereby the former controls the later and creates, maintains and carries forward the perpetual state of inequality: economically, politically, judicially, constitutionally, socially, culturally and spiritually. To reach the state of equality and liberty, the task before humanity is, therefore, to change this state by taking away ownership and money and, with them, the power they generate and confer, that lets one small group of humans, the powerfults, subjugating the vast multitude of humans, the powerless, under their dictatorship. For only by taking away 'the gun' of the power of the powerfults, humanity can bring about the state of liberty, as well as, equality at once: equality and liberty can not and do not exist separately but together and simultaneously. Equality and liberty exist as the Promethumean fire: in which there is the light and there is the heat in one flame: the humanion stands here on the path of humanics: a state of liberty for all humanity at equality. The Promethumean: where Prometheus is not seen as a man but a human. In such a humanical society all humans are, for the first time, in human history of progression, set free at liberty and at equality for there remain no powerfults, who derive their power from ownership and from their possession of money and wealth and, thus, there remain no powerless for no one has any power to dominate others under their prowess."

## **The Opening Segment of The Humanics Elleesium Declaration 2019 The Humanicsxian Manifesto**

"To state the existential imperative of humanity in a world, that has neither a body nor a philosophy, that will enable it to create a system of governance of the public affairs management, political economics and jurisprudence, that support, sustain, enhance, foster and nurture the human condition in a civic society under the rule of law in natural justice, where equity and fairness guide all the persons of humanity and all the agencies, that humanity creates and runs, in which, humanity can exist as humanity-naturale: that all humans are equal and that they all are at liberty at all times and all spheres of existence while they all are educated to the highest degree possible and they all are engaged in eternal learning so to keep their infinite imagination, creativity and ingenuity on the path of eternal progress and development, is to say that it has no alternative but to gather itself together around a new philosophy, new political philosophy, new political economics, new jurisprudence and new sociology and rise to challenge, fight and defeat the monstrosities and high-cruelties, including, poverty of all kinds, manners and forms, inequalities, hunger and homelessness, that capitalism distributes and in so doing creates sociological squalors in societies, that establish the sociology of evil by the implementation of dehumanisation, fragmentation, isolation, dismantling, disabling, disconnecting, disenfranchising and disempowering humanity, which are imposed and established with a vicious and ruthless war of dehumanisation of humanity against humanity, conducted and implemented by the distorteddia conglomerate to the vast majority of humanity and this rise to challenge, fight and defeat the current horrendous capitalistic onslaught on human existence must be conducted with a determination to establish a humanical society of humanity on earth, that will eradicate ownership and money and replace them with belongingship, in which all the economic and political economical affairs are conducted in human enterprise whereby no person nor group nor groups of persons nor any agency nor group of agencies nor consortium nor consortia of them nor states nor governments nor any other type of agencies or entities own anything. The very concept of ownership has been eliminated and it does not exist any longer.

Humanity will continue to live an inferior life than what is possible until the two halves, women and men, with all individuals in them, are absolutely, fundamentally and jubilantly equal at liberty. Humanity, therefore, is not and can not be free until all humans are equals for only by the yardstick of this equality their state of being free can be measured. In other words, there can not exist liberty unless there exists equality between and among all humans and this state of equality can not come to exist so long there remain two groups of humans: the powerful and the powerless: whereby the former controls the later and creates, maintains and carries forward the perpetual state of inequality: economically, politically, judicially, constitutionally, socially, culturally and spiritually. To reach the state of equality and liberty, the task before humanity is, therefore, to change this state by taking away ownership and money and, with them, the power they generate and confer, that lets one small group of humans, the powerfults, subjugating the vast multitude of humans, the powerless, under their dictatorship. For only by taking away 'the gun' of the power of the powerfults, humanity can bring about the state of liberty, as well as, equality at once: equality and liberty can not and do not exist separately but together and simultaneously. Equality and liberty exist as the Promethumean fire: in which there is the light and there is the heat in one flame: the humanion stands here on the path of humanics in human enterprise, working to establish a humanical society: a state of liberty for all humanity at equality. The Promethumean is used here where Prometheus is not seen as a man but a human. In such a humanical society all humans are, for the first time, in human history of progression, set free at liberty and at equality for there remain no powerfults, who derive their power from ownership and from their possession of money and wealth and, thus, there remain no powerless for no one has any power to dominate others under their prowess.

A humanical society creates the conditions of production and distribution of all the created goods, services and provisions to the highest possible level and degree because that society employs the highest possible number of its citizens; those, who are able to work and who are willing to work are employed in all economical activities. All the created products, services and provisions are, then, distributed to the centres of distributions, using all the existing networks of routes and logistics, in all places, villages, towns, cities and communities from where people take whatever they need and everyone works in the field, in which one has developed expertise. A teacher teaches while a surgeon operates, a solicitor represents a client while a social worker serves her case-loads, as farmers produce farming produce as other workers catch and bring fish to the markets but everyone's needs are met without any payment because there no longer exists money nor there exists any manufactured and artificial need for money. This system of political economics is called human enterprise, that is not run by political party system nor is it run by an elite but by a direct form of democracy, humanicsovics. Humanicsovics is run by individual citizens, working together in a constitutionally organised and architected manner and mechanism. Pre-humanical societies will still be run by party political system so to seek to bring capitalism under the rule of law and employ it to work to create, deliver and prepare humanity towards the development, creation and ushering in of humanical societies. In a humanical society the state and government, legislature and judiciary still exist but their organisation, the structure, the running and maintenance and their conduct and functioning change because of humanicsovics, a direct humanical form of democracy, so that they appear not as how we define and see these bodies as but, as, if, they had gone through a metamorphosis and out of which, for the first time in the history of human development, society has finally, developed its own mechanism to conduct itself within the rule of law in natural justice. In this, in humanical society, the states and their governments and the legislatures and the judiciaries, the public administration, civic and community services are all 'structures', that are owned and guided and run by society itself as its individual members of humanity are working together and directly running the public affairs management system through humanicsovics, that is not conducted by or through political parties. Therefore, Karl Marx's prediction that in communism states will

simply wither away can be rephrased as this: that in humanical societies they will not wither away but go through a metamorphosis and rise as restructured and re-organised and re-orientated organisations of society itself, that enables all its members to have the degree of education and learning to acquire the knowledge, skills, qualities, characteristics, aptitudes and competencies, that are necessary to be able to carry out and conduct the running, development and maintenance of these bodies, that belong to society and all its members or citizens. In this, humanical societies will have no state nor government the way they exist today. The pre-humanical society will have created the conditions for these bodies, the states and governments, to go through the metamorphosis and become re-casted into becoming bodies and organisations of society itself, that are run directly by the members of that society: by individuals, working together without any political crowd-pulling or 'party whipping' for they conduct themselves as mathematicians or as scientists. They do not argue nor do they opinioneer but they discuss and debate as rational minds and agree quickly when a solution is found and they are not controlled by party political dogma nor interests nor are they controlled by any other forces or interest or interest groups.

The human condition has not hitherto seen such most vicious, most fierce, most cruel, most barbaric and most doggedly determined brutal and continuous philosophical, political philosophical, political economical, jurisprudential and socio-cultural war being lodged and conducted against it, through the ultimate globalised spread and setting-up of capitalism, supported by a ruthlessly self-serving distorteddia conglomerate, both, together, have, successfully, taken over the states and their governments, regardless of what political forces run them and imposed a Distorteddia Lordship over the populace and entangled both the people as individuals, as families, as communities, as organisations and all the agencies of all manners and types, that people create and run. Despite the unprecedented advancement in learning, knowledge-advancing achievements, in all branches of sciences, medicine, mathematics, engineering and research, innovation and ingenuity and the unimaginable strides, that have been taken in technological advancements and the development of systems, mechanisms, apparatus, networks or the architecture to create, support, sustain, nurture, foster and advance a far superior, far sophisticated and far humanity-nurturing human existence, yet, the vast multitude of humanity across the world are sentenced to serve all high-cruelties in a live-in-life-sentence of misery, suffering, agony and pain, in which, humanity is getting mauled, devastated and torn apart in receiving the vicious and barbaric onslaught of all these high-cruelties: hunger, malnutrition, severe and acute malnutrition, semi-hunger, perpetual hunger, working poverty, unemployment, unemployability, homelessness, rough-sleeping, destitution, beggary, no-education, no-medication, illnesses, no social security protection, no pension, no social care and, added to all this, further high-cruelties are imposed on these humanity through lack of clean and safe water to drink, lack of safe and clean toilets and hygiene and personal health provisions, as well as, lack of clean and healthy environment and lack of clean, pure and natural air to breathe.

## Humanicsxian Economics in Two Phases of Humanics

### Pre-Humanical Phase: Kapitalawnomics

Pre-Humanical Phase: Kapitalawnomics: Capitalism Is Brought Under the Sovereignty of the People and Re-architected to Serve the People Under the Power and Prowess of the Rule of Law at All Times and Used to Develop Everything Towards Humanical Societies || At This Phase These Shall Become Reality: Right to Universal Natural Air || Right to Universal Natural Environment || Right to Universal Degree-Level Education || Right to Universal Balanced and Nutritional Food and Drink || Right to Universal Employment || Right to Universal Income || Right to Universal Home || Right to Universal Health || Right to Universal Social Care ||

For All Humanity Across the Earth Equate to Building-Block Foundational Human Rights: And the Entire Humanity Joining Together As All Individuals In a Humanion, Forming the First All-Humanity Sovereignty-Naturale Habitat-Body on Earth and on This Universe as the First Ever International and Universal All-Humanity State and Government for the Whole World as One Body With Its Legislature Executive Judiciary Financial-Judiciary Rule of Law Civic Service Compact and Its Own Central Bank and Its Own Currency That Is the New International Currency || This Phase Is Done Through and by Working Humanity Organising As Political Forces and Parties.

## Humanical Phase

Human Enterprise: Ownership Money and Their Powers and Prowess Are Eliminated and Replaced by Belongingship Whereby Humanity Reach Liberty and Equality and All Human Economics Endeavours Are Organised and Run Under Human Enterprise and the Whole Public Affairs Management Is Run and Conducted by Humanicsovics Whereby All Individual Humanity Work Together As Organised People Parliaments As Their Own High-Representatives: This Is Humanicsovics || This Is What the World's Working and Non-Working Humanity on Poverty-Wage on Punishment-Social-Security on Destitution-Abandonment-No-Security and the Powerless and Homeless Humanity Must Rise to Fight For and Reject All Plastering Tinker-Works by Any Political Forces: This Is Why It Is Time to Rise As One and Unite and Organise to Begin Again: Where Are the Younger Generations: Because If We Humanity Have Any Future It Is In Your Hands Hearts Minds Souls Eyes and Vision: Believe: Humanity Naturale Is an Infinity Unfolding Itself and In Being and Doing Such Humanity Naturale We All Exist by the High-Humanical Maxim: All-For-One and One-For-All and With This Humanical Societies Appear All Across the Earth and They All Form a Grid of a Humanical Civilisation, Led and Run by All Humanity Working Together at the Highest of All Bodies: The International and Universal State and Government of the Entire Humanion ||

**This Is the Body of Work, by Munayem Mayenin, That Has Brought Into Existence the Philosophy and Vision of Humanics**

**Dehumanisation of Humanity: Volume One: Published: July: 2007: 978-1-4477-1330-2**

Mayenin worked and developed the very critique of capitalism and Marxism while at university in which he had elvisioned the world's future in humanics for humanity to reach and achieve liberty and equality for all humanity, which capitalism has continually slaughtered and Marxism failed desperately, even, to understand, let alone, to know or show how to seek and achieve them. Some of these works were published in publications in the early 00s and the volume was published as a book in 2007. There are three other volumes of this planned work, yet to be published.

**Humanics The Foundation: Volume One: Published: December 06: 2017: ISBN: 978-0-244-34575-4**

This piece of work elaborated the philosophy of humanics and presented the idea of human enterprise and how it works to enable humanity to conduct the human economical endeavours in humanics.

**Humanics The Humaniconomics: Volume Two: Published: June 12: 2018: ISBN: 978-0-244-48334-0**

This is the political economics or humaniconomics of humanics in human enterprise. This volume presents the political economics of humanics and envisioned world's future as two distinct phases: pre-humanical or Kapitalawnomics phase in which capitalism is saved from pseudonomics and brought under the absolute and complete control and power of the rule of law so to make it serve the people at all times and not the rich and through this phase, humanity brings into existence the humanical Building-Block Foundational Human Rights and end capitalism's Poverty Paradigm, that causes all of the high-cruelties, high-brutalities and high-barbarities, that are inflicted on the vast number of humanity on this earth. Further to this, this work advances the system and mechanism of human enterprise and envisioned at the end of the development of Kapitalawnomics human societies will have developed enough to be able and equipped to try and seek to bring into existence humanical societies, that will begin to form a grid of humanical societies into a universal humanical civilisation on earth.

**The Humanics Elleesium Declaration 2019: The Humanicsxian Manifesto: Published: April 06: 2019: ISBN: 978-0-244-76474-6**

This short piece of work nano-summarised the entire body of Munayem Mayenin's works on humanics. This calls on the working humanity of the world to rise, organise and united under new and humanical political forces, parties and organisations to seek and try to bring about a humanical world movement to lead humanity to equality and liberty.

**Humanics The Humanicosovics: Volume Three: To Be Published Later This Year**

This volume presents the political philosophy of humanics and the means to deliver that political philosophy by and through humanicosovics, humanical direct form of democracy without party politics whereby each and every individual human being becomes his:her own High Representative and they all run their society's human affairs management together as individuals, working together as scientists and mathematicians without any political parties.

**Alphansum Sovereign Necessarius: Published April 14: 2020: ISBN: 978-0-244-58241-8**

Although, this large volume is of metaphysical work, it has brought the whole humanical universal view in a harmonious outlook, unifying all expressions, fields, areas and arenas of human existence and in this process this work envisioned the coming into existence the new branches of science, that has already been mentioned.

**Maya The Mechanoprincipium: Munayem Mayenin: Published: January 25: 2022: ISBN: 9789403645216**

**Laranska The Anatomy of Fear: Novel: Published: January 2009: ISBN: 978-1-4477-1426-2**

**No Man's Land's Bloom: Play: Published: May 2010: ISBN: 978-1-4477-0903-9**

**United Colours of Blood: Screenplay: Published: January 2009: ISBN: 978-1-4477-1615-0**

**Larantia Poetry of Anatophysiosphilosophicamonimayareginata: A Magnum of a Planned Volume of 850 Sonnets About All Branches of Medicine: Currently Having Few Hundred Sonnets: First Published: October 14, 2016: ISBN: 978-1-326-28882-2**

In his other major bodies of works, that are yet to be published Mayenin has worked on further in elaborating the psychology and social psychology of the zoohumanity, that capitalism and all the dehumanisations it has inflicted on humanity through its enforcement of inequality and the absence of liberty. These as yet unpublished works include: Psychology of Zoohuman, Humanical Jurisprudence, Sociology of Evil, Economics of Squalors: The High-Cruelties High-Brutalities and High-Barbarities of Capitalism, Humanical Moral Science, Social Morality Or Good State, Humanical Civilisation: A Universal Grid of Humanical Societies and Colossus Complexus: Eternally Learning Humanity.

|| Humanity Will Continue to Live an Inferior Life Than What is Possible Until the Two Halves, Women and Men, with All Individuals in Them, are Absolutely, Fundamentally and Jubilantly Equal at Liberty. Humanity, Therefore, Is Not and Can Not Be Free Until All Humans are Equals for Only by the Yardstick of This Equality Their State of Being Free Can Be Measured. In Other Words, There Can Not Exist Liberty Unless There Exists Equality Between and Among All Humans and This State of Equality Can Not Come to Exist So Long There Remain Two Groups of Humans: The Powerful and The Powerless: Whereby the Former Controls the Later and Creates, Maintains and Carries Forward the Perpetual State of Inequality: Economically, Politically, Judicially, Constitutionally, Socially, Culturally and Spiritually. To Reach the State of Equality and Liberty, the Task Before Humanity is, Therefore, to Change This State by Taking Away Ownership and Money and, with Them, the Power They Generate and Confer, That Lets One Small Group of Humans, The Powerfuls, Subjugating the Vast Multitude of Humans, The Powerless, Under Their

Dictatorship. For Only by Taking Away 'the Gun' of the Power of the Powerfulls, Humanity Can Bring About the State of Liberty, as Well as, Equality at Once: Equality and Liberty Can Not and Do Not Exist Separately But Together and Simultaneously. Equality and Liberty Exist as The Promethumean Fire: In Which There is the Light and There is the Heat in One Flame: The Humanion Stands Here on the Path of Humanics: A State of Liberty for All Humanity at Equality. The Promethumean: Where Prometheus is Not Seen as a Man But a Human: In Short, Regine Humanics Foundation Ltd and The Humanion Stand for These and Exist and Work for the Promotion of This Vision of Humanics for a Better Human Condition for All Humanity Across the Mother Earth on the Mother Universana: We Invite You All for Your Support: Join Us in Telling the World and World Humanity That: An Infinitely Better Human Condition for All Humanity Across the Mother Earth IS Possible. || Regine Humanics Foundation Ltd ||

The world has, apparently, accepted that Capitalism is the High Pinnacle of All Systems and, some still dream that Marxism will rescue humanity from this Killing Mechanism Capitalism, we refuse to subscribe to that. Humanics is the Post-Marxist and Post-Capitalistic World View of What Humanity can be and what it can do and how infinitely better a human condition can be created in a Humanical Society, by eradicating ownership and money and by establishing belongingship in human enterprise, setting all humans at liberty and equality under the rule of law in natural justice with a direct form of democracy, humanics calls it, Humanicsovics, in which, each human soul is her:his own High Representative. In this, Humanics is the Minority Vision and we do not and can not expect millions and billions of people supporting our vision today but We Whole-Heartedly Believe That ONE DAY This Humanity Shall BE ALL HUMANICAL: By When: We Know Not But This: That Being a Monstrous Killing Mechanism Capitalism IS Unsustainable: The World Shall Change One Day and Every Change Begins with an Idea, with a Vision:

We invite you to Envision the Vision and Philosophy of Humanics and Support The Humanion, The Humanion Portable Daily, The Humanion Larnaarch and The Foundation to Keep Taking Forward the Vision and Philosophy of Humanics, to Keep on Challenging Capitalism's Poverty Paradigm, for an Infinitely Better Humanity in an Infinitely Better Human Condition for All Humanity Across Mother Earth. Thank You.

There can not be any sustainability until and unless we take the view that sustainability comes as philosophical, political philosophical, political economical, ethical, moral, sociological, educational, jurisprudential, socio-cultural and ecological and humanical spiritual so that we are able to create a sustainable 'architecture' of existence in a clean, green, circular and sustainable political economics, that underpins all forms and expressions of sustainability and when such an 'architecture' exists within the Larin Paraske Maxim or Oath: Do No Harm to Anyone or Anything: all things and all living forms must have equitable status in the sphere of all existence or all life on earth, with an emphasis on the Universana. Because humanity does not just exist on earth but it does so in the Sunnara, in the Home Bay of the Milky Way Galaxy in the vast expanse of the Universe, our home Universana. Dear Reader, we are on the path of humanics, please, tell the world and world humanity that humanics has arrived on earth from 'the without of human imagination', learning, questioning and thoughts, gained from the eternal walks of this human soul's eternal journey on the eternal path of eternal learning, with its humanical metaphysics, humanical philosophy as natural science, humanical psychology, humanical political philosophy, humanical political economics, humanical jurisprudence, humanical sociology, humanical moral science and humanical arealism. For capitalism has created global warming and climate change and wracked the earth with environmental degradations and pollutions in all spheres, where bio-diversity is getting lost at an alarming

rate as the earth keeps on being heated up. Humanity is devastated by capitalism's poverty-paradigm, delivering all its high-cruelties, high-brutalities and high-barbarities. This is why it is paramount that that we speak up and out and try our hardest to inspire faith, hope, determination and resolution among all humanity of this world, women and men, that we shall not just accept this 'sentence of doom', that capitalism's mindless consumerism, infinite greed of infinite profiteering, decadent voguism and venomous voyeurism, orchestrated by the Distorteddia have brought us and, yet, that we can, we should, we ought, we must keep on trying: 'to seek to try: to do: to change: to make better the human condition' and we do so as one humanity, as women and men, working together as one, in unison with the same aim, same goal, same objective: to get all humanity to liberty, equality, fairness and justice in the rule of law in natural justice, with a purpose and meaning to our existence, where we all humanity, with our all-unity and all-diversity, exist as one humanity naturale on one Mother Earth, in one Sunnara, in one Home Bay Milky Way Galaxy in the one Universana with the humanical foundation of faith: humanity is an infinity unfolding itself, in which, we are all-for-one and one-for-all.
